

FunGuard

An Excellent & Economic Organic Bio-Controller Based on Herbal Extracts

FunGuard is a bio dynamic formulation derived from selected, activated, potentiated botanical extracts of Adhatoda Vasika, Cardiospermum Halicacabum & Embelia Ribes that enhances the self defence mechanism in the plants. It enables the plant to control & prevent many fungal, bacterial & algal diseases.

Mode of action : It acts as a Bio catalyst, which activates, energises root function to extract silica from the soil as required by the plant. Silica gives structural stability to the plant, hardens the cell walls of roots, stems, barks & leaves so that fungal mycelia can't penetrate the plant. It strengthens the tissue and helps to build a bark that resists penetration by fungal pathogens. Apart from organic control of fungal pathogens, FunGuard also improves crop both in quality and quantity.

Target Pests : FunGuard controls all types of Plant Diseases i.e., Blister blight, Late blight, Early blight, Grey Blight, Black rot, Red rust, Rice Blast, Anthracnose, Phomopsis Cane, Cercospora Leaf Spot etc.

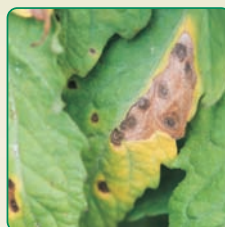

Anthracnose

Powdery Mildew

Downey Mildew

Late Blight

Red Rust

Sclerotinia Stem Rot

Cercospora Leaf Spot

Rice Blast

Advantages : **1.** FunGuard controls all types of Fungal diseases. **2.** Unlike copper based products it doesn't retard the growth of plants. **3.** Improves bush health & increases the Yield. **4.** It recovers the bush very fast. **5.** It imparts resistance against various diseases. **6.** Dose not leave any taint or residue on end products.

Dosage : For Tea Sector : 0.5 ml / l of water (200 ml / ha)
For Vegetable : 1 ml / l of water (400 ml / ha)

Use **Magic Shakti** at 20 ml / 200L as surfactant to enhance its efficacy.
