

GOLDEN TEA SPECIAL

(Excellent Booster for Yield & Quality)

Contains : Zinc 8%, Magnesium 2%, Manganese 2%, Molybdenum 0.01% & Boron 0.5%

Nutri Golden Tea Special (NGTS), foliar liquid is a micronutrient mixture of Zinc, Magnesium, Manganese, Molybdenum & Boron.

NGTS is a balanced combination of micronutrients to enhance vigorous growth & imparts excellent quality in tea.

NGTS is acidic in reaction & will buffer spray tank water.

NGTS is compatible with other conventional pesticides & fungicides.

NGTS foliar improves the brightness, briskness & total quality of made tea for a marketable gain.

NGTS helps to prevent the deficiency of all the essential micronutrients required by tea.

NGTS enhances the bushes and produce high percentage of fine leaves (two leaf & bud).

NGTS indirectly helps in proper assimilation of soil applied NPK in the bush.

Time of application :

Once prior to each flush, i.e. (i) 1st flush, (ii) 2nd Flush, (iii) Rain Flush, (iv) Autumn Flush.

Dosage : 1 Ltr. per Hectare
