

Shakti Virocheck

Herbal Extract for Controlling all kinds of Viral Diseases

Viral disease is becoming a major problem for Indian farmers, especially for crops like papaya, all kinds of melons and vegetables. The disease, it seems, was incurable, till today.

Nivshakti Bioenergy, keeping with its traditions of unique products, is proud to introduce Shakti Virocheck which can cure the viral disease in all the above mentioned crops.

Shakti Virocheck cures the viral disease on any crop in eight to ten days.

The dosage of Shakti Virocheck is 2 ml/ltr of water and it needs to be sprayed twice within a span of 4-5 days. It is recommended that any available sticker be used along with it.

Around 200 and more trials have conducted all over India and abroad.

The results include virus free new shoots, improvement in leaves and overall improvement and increase in quantity and quality of the yield.

The one with spots is affected leaf while the one w/o spots is fresh one! The fresh leaf emerged after spray of medicine developed by Nivshakti Bioenergy to counter virus.
